Dear Hiring Manager,

I am writing to express my interest in the Civil Engineer position focused on Residential Land Development. With a Bachelor's degree in Civil Engineering, a recently completed Master's in Construction and Facilities Engineering from UNC Charlotte, and over two years of hands-on experience in design, site inspection, and project documentation, I am confident in my ability to contribute effectively to your team.

In my previous roles, I was actively involved in preparing site development plans, grading, stormwater calculations, and utility layouts for residential and commercial projects. I utilized AutoCAD, Civil 3D, and Bluebeam for design and plan markups, and collaborated with cross-functional teams to ensure code compliance and project deadlines. I am particularly proud of reducing design errors by 20% through diligent QA/QC checks and improving take-off efficiency through digital workflows.

I am passionate about land development and enjoy working in fast-paced, team-oriented environments. I am currently preparing for the EIT certification and am eager to grow within a collaborative firm like yours that values innovation and technical excellence. Relocating to Virginia is a welcome opportunity for the right role.

Thank you for considering my application. I've attached my resume for your review and would welcome the opportunity to further discuss how my background aligns with your team's goals.

Sincerely,

Durga Harshavardhan Dasari
