I am writing to express my enthusiastic interest in the Project Engineer position at your company. As a soon-to-be graduate with a Master's degree in Construction Management & Technology from Arizona State University and over three years of field experience, I am excited about the opportunity to bring my growing knowledge to your team—and more importantly, to continue learning every day as I build my future with you.

What excites me most about this role is your company's commitment to developing its team through hands-on training and mentorship. I am deeply motivated by opportunities to learn, and I thrive in environments where I can grow by taking on new challenges and responsibilities. From managing RFIs and submittals at the Oregon Department of Transportation to coordinating field operations on multifamily and commercial projects at Erling Development LLC, I have consistently sought opportunities to expand my technical knowledge and enhance my contributions to the team.

My experience in heavy civil and industrial construction—encompassing earthwork, paving, bridge, and warehouse construction—has taught me the importance of attention to detail, safety, and clear communication. I possess functional knowledge of tools such as Procore, Bluebeam, and Primavera P6, and I'm certified in OSHA, LEED, and Paving Inspection. Still, I recognize there is always more to learn, and I am eager to absorb everything I can from your team of experienced professionals.

I believe my positive attitude, take-charge mentality, and strong desire to grow make me an excellent fit for this position. I am ready to contribute on day one and committed to developing into a valuable long-term team member.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your projects and grow alongside your team.

Sincerely,

Siddesh Potdar
