Dear Hiring Manager,

I am writing to express my keen interest in the construction-focused position recently posted. With a Master's in Construction Management from the University of Houston (GPA 3.74), a Bachelor's in Civil Engineering, and hands-on experience across both U.S. and international civil projects, I am confident in my ability to contribute meaningfully as a driven and safety-conscious team member.

Currently, I serve as a Professional Engineer - I at S&ME Inc, where I support the design and supervise construction of a variety of civil infrastructure projects, including pharmaceutical plant, airport project. My experience also includes field testing, estimating, shop drawing reviews and on-site coordination—skills that closely align with the responsibilities outlined in your posting.

I am OSHA 30 and 10 certified and am comfortable working in both field and office environments. My software proficiency includes MS Office, Procore, Bluebeam Revu, Primavera P6 and AutoCAD. Known for a strong work ethic, a take-charge attitude and a collaborative mindset, I strive to bring energy and reliability to every team I work with.

Previously, I gained valuable field execution and project control experience with Ratnarup Projects in India, where I supervised civil works, coordinated subcontractors, reviewed construction documents and prepared RFIs, submittals and change orders. I then contributed to over 25 diverse projects as a Construction Materials Testing Co-op at Braun Intertec, including Minnesota's largest freeway project. My background includes estimating material quantities, tracking production, verifying quality control, coordinating subcontractors and preparing documentation across residential, commercial and infrastructure works

The opportunity to join your organization, contribute to impactful projects and grow is exciting. I welcome the chance to bring my background in heavy civil, industrial and commercial construction to your team and would appreciate the opportunity to discuss how I can contribute to your ongoing success.

Thank you for considering my application.

Sincerely,
Yash Baheti
